AMIOP provides comprehensive evaluation and addiction treatment services to Military, Retirees, and Dependents. We also provide weekly updates to referring agencies and offer on/off site Treatment Team Meetings.

## HOW TO DETERMINE IF SOMEONE NEEDS HELP:

1. Has the substance use impacted work?
2. Is the substance use affecting home life?
3. Are financial difficulties related to substance abuse?
4. Has your Primary Care Physician identified any ailments directly related to substance use?
5. Do you have legal issues surrounding substance use i.e., DWI/DUI?
6. Have you or someone else been injured by your substance use?
7. Have you ever gotten into fights while under the influence?
8. Has your substance use created problems between you and your spouse?
9. Do you use substances to escape problems?
10. Have you ever been hospitalized on account of your substance use?

If you answered yes to one or more of the above then an assessment is warranted. Please contact your referral agency for a complete evaluation and referral to AMIOP.
